The Good Sauce of Abruzzo!

In the land of pasta, as the Province of Chieti is known worldwide, great attention is also paid to sauces and dressings.

This is our most important as well as most challenging challenge: to create really good sauces able to overcome that deep-rooted mistrust towards ready-to-use sauce.

The commitment of our Chefs from Villa Santa Maria was outstanding!

Now we can certainly say we have created something which is truly unique and innovative for the market.

Through our sauces, we want to address both young consumers who like new things and also those who aim at making a good impression thanks to a first course prepared at the very last moment but which is as good as one dressed with a traditional sauce.

Only excellent raw ingredients, carefully blended and cooked according to an old-time style: on a low flame and by complying with a proper cooking time.

In our red sauce we only use local tomatoes of the greatest quality, processing them during the summer when they release their intense and genuine flavours.

San Tommaso ® Sauce offers a full range of products to satisfy all tastes. Traditional Sauces for an everyday use providing full pleasure and satisfaction. Original Sauces for first dishes made to impress being characterised by innovation and, at the same time, tradition.

Our Chefs from Villa Santa Maria have created sauces you cannot miss.....
TRYING IS BELIEVING!
